Dr. G. R. McDonagh,

Toronto.

Dear Dr. McDonagh:

I have this morning received your letter tendering your resignation of the Professorship of Oto-laryngology. I will to-morrow afternoon lay it before the Board who I am sure in accepting it will express to you their high appreciation of your long service to the University, and will I believe desire that you should maintain some connection with the University. I hope that you will have many years of continued health and that we shall often see you at university functions.

I am,

Yours sincerely,

President.
